ENGINEER

## OBJECTIVE

Highly motivated S1 Computer Science student seeking an enriching internship opportunity to apply foundational programming and design skills while actively contributing to innovative projects. Eager to cultivate expertise in AI/Machine Learning Engineering and develop essential leadership capabilities for a future role as a Project Manager.

## SKILLS

Highly motivated Computer Science student combining strong technical skills in Python, Javascript, C++, UI/UX design, and foundational Machine Learning with proven communication, teamwork, and problem-solving abilities.

## EXPERIENCE

### MEMBER OF HMPTI • FTI UKSW • 2025 – 2026

As a proactive member of the Computer Science Student Association, I actively fostered positive internal and external relations, enhancing cohesion among 40+ members and promoting the faculty. I demonstrated leadership by successfully coordinating a workshop class for over 40 participants and regularly contributed valuable input to the chairperson, taking on specific assigned tasks. My involvement further extended to meaningful community outreach initiatives.

## EDUCATION

### COMPUTER SCIENCE • AUGUST 2027 • UKSW

Data Structures & Algorithms, Object-Oriented Programming, Introduction to Artificial Intelligence, Machine Learning, Web Programming, Software Engineering.

GPA : 3.6/4.0

## COMMITTEE MEMBER, MACHINE LEARNING WORKSHOP

As an Organizing Committee Member, I was responsible for coordinating students, ensuring effective task delegation and smooth delivery of materials from instructors to participants. I also ensuring an organized and productive learning environment for all attendees.
